International Journal of Computer Science and Network

Impact Factor of IJCSN Journal is calculated from citation information obtained from Google Scholar, CiteSeerX β .

Impact Factor (IF) = (489 / 329) = 1.5

S.N.	Year	Total Number of Published Articles
1	2015	171
2	2016	158
	Total	329

Some highly cited papers are listed below:

S.N.	Cited Articles from IJCSN Journal	Citation Count
1	Class Imbalance Problem In Data Mining Review	74
2	Algorithm And Approaches To Handle Large Data-A Survey	43
3	FCM Based Blood Vessel Segmentation Method For Retinal Images	35
4	Survey On Security Challenges In VANET	27
5	CVLEACH: Coverage Based Energy Efficient LEACH Algorithm	16
6	An Overview Of The Research On Texture Based Plant Leaf Classification	16
7	Cloud Computing: An Analysis Of Its Challenges & Security Issues	15
8	Cross-Site Scripting Attacks On Android Webview	14
9	Classification Of Student's Data Using Data Mining Techniques For Training & Placement Department In Technical Education	14
10	Hand Gesture Recognition Using Neural Network	12
11	RFID Based Bill Generation And Payment Through Mobile	10
12	Real Time Health Monitoring Using GPRS Technology	9

10		
13	A Differential Evaluation Algorithm For Routing Optimization In Mobile Ad-Hoc Networks	8
14	A Review On The Various Recent Steganography Techniques	7
15	Energy Efficient VM Live Migration In Cloud Data Centers	7
16	The Adaptive Optimized Routing Protocol For Vehicularad-Hoc Networks	6
17	Performance Evaluation Of Zigbee Protocol Using OPNET Modeler For Mine Safety	6
18	A Novel Method For Water Irrigation System For Paddy Fields Using ANN	5
19	Pc-Rc4 Algorithm: An Enhancement Over Standard RC4 Algorithm	5
20	An Empirical Study On Classification Using Modified Teaching Learning Based Optimization	5
21	Application Of Data Mining In Marketing	5
22	Modified Cocomo Model For Maintenance Cost Estimation Of Real Time System Software	4
23	High-Speed Multiplier Design Using Multi-Operand Multipliers	4
24	The Robust Digital Image Watermarking Using Quantization And Fuzzy Logic Approach In	4
25	DWT Domain Hiding Sensitive Association Rule Using Clusters Of Sensitive Association Rule	4
26	Pervasive Computing Goals And Its Challenges For Modern Era	4
27	Detection And Classification Of QRS And ST Segment Using WNN	4
28	Performance Of IEEE 802.15. 4 In WSN For Monitoring Real Time Air Pollution Parameters	4
29	Holograph Projection-Future Of Visual Communication	4
30	A Reactive Protocol For Privacy Preserving Using Location Based Routing In MANETS	4
31	Performance Evaluation Of Dynamic Particle Swarm Optimization	3
32	A Statistical Analysis Of Bubble Sort In Terms Of Serial And Parallel Computation	3
33	Extracting Tars From XML For Efficient QA	3
34	Real Time Health Monitoring Using GPRS Technology	3
35	Extracting Tars From XML For Efficient Query Answering	3
36	Detecting Sinking Behavior At MAC And Network Layer Using SVM In Wireless Ad Hoc	3
	Networks	3

38	A Study Of The Processes Involved In ECG Signal Analysis	3
39	Introduction To Real Time & Secure Video Transmission Using Distributed & Parallel Approach	3
40	Fast Speaker Recognition Using Efficient Feature Extraction Technique	3
41	An Unsupervised Pattern Clustering Approach For Identifying Abnormal User Behaviors In Smart Homes	3
42	A Survey On Railway Security In Wireless Network	3
43	Evaluation Of Discrete Event Wireless Sensor Network Simulators	3
44	Prevention Of Buffer Overflow Attack Blocker Using IDS	3
45	Analysis Of Errors - A Support System For Teachers To Analyze	3
46	Evolution Of Gi Fi Technology Over Other Technologies	3
47	Improved Watermarking Scheme Using Discrete Cosine Transform And Schur Decomposition	3
48	Policies Based Intrusion Response System For DBMS	2
49	A Novel Authenticity Of An Image Using Visual Cryptography	2
50	Throughput And Delay Analysis Of Wireless Mobile Adhoc Network With Different Transmission Power By Varying Antenna Height	2
51	Advent And Importance Of Handoff Under Wireless Communication Evaluation	2
52	Integrating Heterogeneous Data Sources Using XML Mediator	2
53	Protection Of Privacy In Visual Cryptography Scheme Using Error Diffusion Technique Using Error Diffusion Technique	2
54	JPEG Versus GIF Images In Forms Of LSB Steganography	2
55	Implementation Of Blind Digital Signature Using ECC	2
56	A Review Of Thé Roles And Importance Of Information And Communication Technologies (Icts) In Supply Chain Management (SCM) Of Organizations And Companies	2
57	Zigbee: A Promising Wireless Technology	2
58	A Survey On Spatio-Temporal Data Mining	2
59	A Review Of The Roles And Importance Of Information And Communication Technologies (Icts) In Supply Chain Management (SCM) Of Organizations And Companies.	2
60	Modified Mutual Authentication And Key Agreement Protocol Based On NTRU Cryptography For Wireless Communications	2
61	The Performance Evaluation Of AODV & DSR (On-Demand-Driven) Routing Protocols Using Qualnet 5.0 Simulator	2

62	A Study Of The Various Architectures For Natural Language Interface To DBS	2
63	PC1-RC4 And PC2-RC4 Algorithms: Pragmatic Enrichment Algorithms To Enhance RC4 Stream Cipher Algorithm	2
64	Implementation Of Discrete Wavelet Transform Processor For Image Compression	2
65	Review Paper On Preserving Confidentiality Of Data In Cloud Using Dynamic Anonymization	2
66	Algorithm To Handle Concept Drifting In Data Stream Mining	2
67	Interpretation Of Significant Eye Blinks With The Use Of Intelligent Agent For Effective Human Computer Interaction	2
68	Study Of Network Layer Attacks And Countermeasures In Wireless Sensor Network	2
69	Distance Measurement With Active & Passive Method	2
70	Digital Data Security And Copyright Protection Using Cellular Automata	2
71	AIDSS-HR: An Automated Intelligent Decision Support System For Enhancing The Performance Of Employees	2
72	Establishing A Service Model Of Private Elastic VPN For Cloud Computing Cloud Computing	2
73	Analytical Scenario Of Software Testing Using Simplistic Cost Model	1
74	Privacy Preserving Data Mining Operations Without Disrupting Data Quality	1
75	Reliable Broadcast Using Speed Synchronized Protocol For Different Speed Vehicles In VANET	1
76	A Development Of An ISG Framework For Mosul's Health Sector	1
77	A Study On Security Requirements In Different Cloud Frameworks	1
78	JSON Vs XML: A Comparative Performance Analysis Of Data Exchange Formats	1
79	Statistical Bound Of Bubble Sort Algorithm In Serial And Parallel Computations	1

80	Message Routing With Counting Bloom Filter For Name-Based Home Ad Hoc Networks	1
81	Review Of Various Algorithms Used In Hybrid Cryptography	1
82	Simulation Un-Symmetrical 2 Phase Induction Motor	1
83	A Review On Secured Money Transaction With Fingerprint Technique In ATM System	1
84	Association Rule Mining: A Survey	1
85	Activity Modeling In Smart Home Using High Utility Pattern Mining Over Data Streams	1
